Bentley iWare Apps

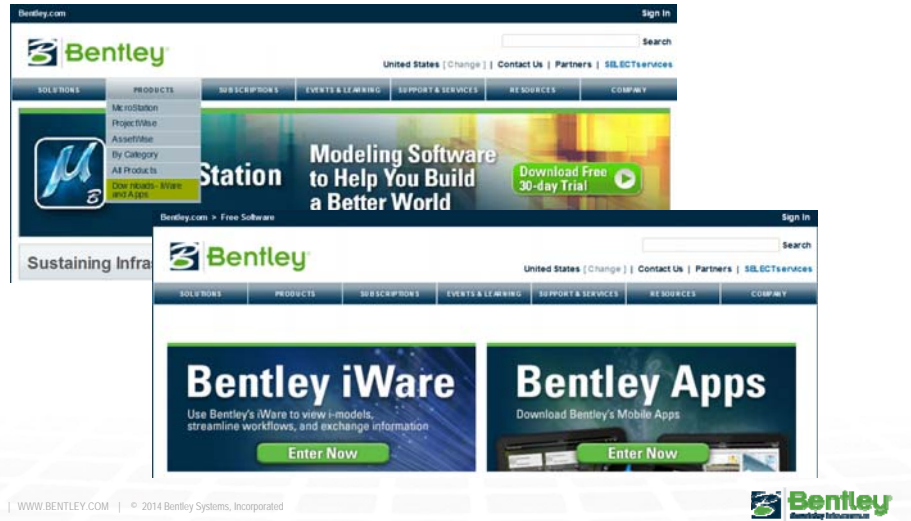

Bentley iWare

- iWare is free software that extends Bentley's products and services to support unprecedented information mobility.
- Use iWare to share information across both the infrastructure lifecycle and project disciplines in a controlled and secure fashion, regardless of file format, physical location, or devices used.
- Download free iWare to extend your capabilities to utilize i-models, exchange information, and streamline workflows.

Tools

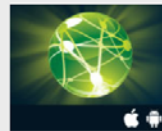

AGS Toolkit

Quickly validate AGS files and use them in Excel
(version 08.30.03.135)

Bentley Configuration Explorer

Investigate and manage configurations of Bentley Applications
(version 08.11.09.26)

Bentley Map Mobile Publisher

Publish Bentley Map data to i-model for use with Bentley Map Mobile
(version 03.00.01.10)

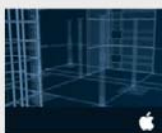

Bentley Pointtools PODcreator

Batch import of point-cloud data from various laser scan formats
(version 02.00.01.02)

FlexUnits

Easily perform unit conversions
(version 02.01.00.04)

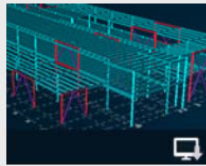

Structural Synchronizer V8i

Synchronize data, obtain revision history, and view models
(version 08.11.11.46)

Viewers

Bentley View V8i

Interact with DGNs, DWGs, and i-model files
(version 08.11.09.459)

Bentley Pointools View

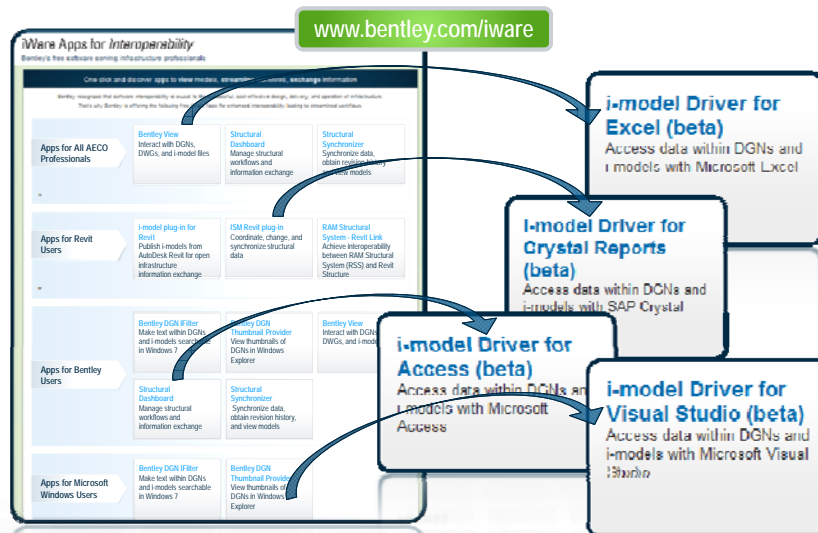

Real-time point-cloud visualization
(version 02.00.01.00)

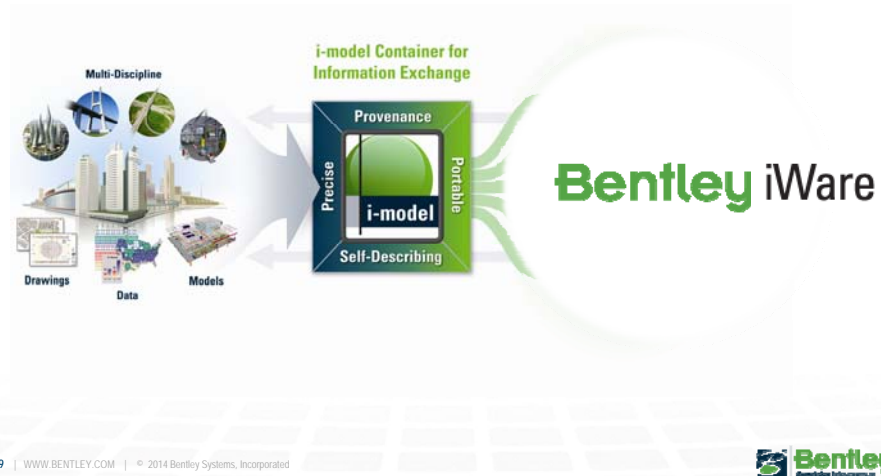

Structural Dashboard

Manage structural workflows and information exchange
(version 08.11.09.08)

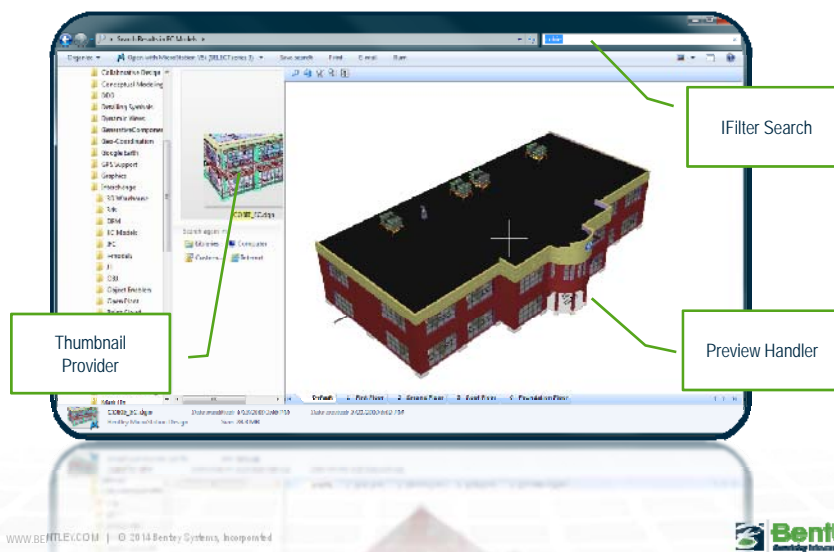

Interoperability through iWare

Extending the reach and value of information models

Bentley DGN Reader for Windows 7

i-model driver for Excel

i-models in Crystal Reports

Standard Report Creation Wizard

i-models in Visual Studio (VB, C#)

Visual studio
